

4 Phases of Emergency Mgmt

- Mitigation** - standards to prevent industry from impacting residential areas, sub-standard construction; educate public
- Preparedness** - disaster planning, recognition of hazards, training
- Response** - direct assistance to disaster area, or as a support agency to first-responders
- Recovery** - agencies determine impact; identify needs to return to pre-disaster condition; may need State/Fed. assistance

Potential Hazards

Hazard	Rating
Water Supply	
Contamination	292
HazMat in transit	270
Severe Storm	270
Flash Flood	252
Epidemic	242
Tornado	234
Utility Failure	212
Ice Jam	208
Terrorism	199
Transportation Accident	198
Fire	194
Ice Storm	186
Winter Storm (severe)	181
Hurricane	176
River Flood	168
HazMat (Fixed Site)	158

High Hazard: 321 - 400
 Moderately High: 241 - 320
 Moderately Low: 161 - 240
 Low Hazard: 44 - 160

Agency Representatives

Responsibilities – CHECKLIST

- Assist with emergency operations
- Appoint representative to LEPC
- Ensure actions in accordance with EOP
- Utilize parent organization's resources
- Inventory emergency staff/equipment
- Maintain staff contact/recall alert rosters
- Maintain "language interpreter" list
- Maintain Disaster Ready Team list
- Maintain succession line for sr. positions
- Able to assist other organizations
- Maintain "additional person/resource" list
- Pre-contract for resources
- Maintain SOP/Gs that support EOP
- Maintain safety guide for your facilities
- Maintain SOPs to protect infrastructures
- Maintain "vital records" list
- Safeguard vital records
- Provide for continuity of operations
- Maintain SOP to record expenditures
- Liaise with nearby munic./county/military
- Initiate mutual aid agreements
- Familiarize staff with emerg. responsibilities
- Hold annual hurricane awareness training
- Conduct periodic emergency exercises
- Provide representative to EOC
- Provide admin./logistical support
- Report to ES Dir. on missions assigned
- Maintain "relevant info." documentation
- Report information collected to ES Dir.
- Inform ES of injuries/fatalities/ damages
- Issue media releases through County PIO
- Recovery: return to pre-emerg. conditions
- Participate in "after action" reviews
- Identify improvements; update plans
- Maintain plans/policies/procedures

Broome County

Emergency Operations Plan (EOP)

EOP Snapshot

February 14, 2008

EOC/911

Introduction

This Snapshot is to serve as a quick reference and "road-map" through the EOP for the various officials, agencies and departments within the community. It provides high-level guidelines for an initial response and various responsibilities during an emergency situation.

Having a formal EOP encourages an integrated approach to disasters, and fosters prompt, efficient and coordinated response operations by the different elements of the emergency organization. It requires a system-wide integration of skills, people and resources. By pre-defining roles for each response agency reduces confusion, chaos and conflict during an emergency and significantly decreases vulnerability of the public and their property to hazardous threats.

This EOP Snapshot does not replace the detailed EOP which may be found at: gobroomecounty.com. It serves as an easy-to-read conceptual overview, showing how all the components come together in response to an emergency. Important components of this EOP overview are the individual ESF/Annex/Incident SNAPSHOT Cards.

Background

The Broome County EOP assigns responsibilities for actions to be taken at the local level by government and private organizations to reduce vulnerability to disaster and to establish effective response capabilities. Consistent with the model provided in the National Response Plan (NRP) and National Incident Management System (NIMS), the Plan can be partially or fully implemented for an anticipated or actual disaster.

The EOP applies an all-hazards approach to emergency management planning and preparedness and follows the structure established by the NRP:

- **Base Plan** – describes the structure and processes designed to integrate the efforts and resources of first responder organizations; includes planning assumptions, roles/responsibilities, concept of operations, incident management actions, and Plan maintenance
- **Emergency Support Functions (ESFs)** – details the missions, policies, structures, and responsibilities of organizations during disasters e.g. Transportation, Communications, Firefighting, Public Safety and Security, Search and Rescue
- **Support Annexes** – describes the functional processes necessary to ensure an effective implementation of EOP incident management objectives e.g. Financial Mgmt, Logistics Mgmt, Public Affairs, Volunteer Mgmt
- **Incident Annexes** – describes specialized responses requiring additional considerations e.g. Biological, Oil/Hazardous Materials, Terrorism

It provides a flexible structure for responding to all types of emergency and disaster events, both natural and manmade. The EOP applies to all local government departments or private organizations that may be requested to provide assistance or conduct operations during an emergency or disaster event. These events require a coordinated and consistent response by participants at all levels.

Planning Assumptions

Broome County - is exposed to many hazards, all of which have the potential to develop into a disaster situation; may need to respond using only local resources, although outside assistance may be available for larger disasters

Disasters - could occur at any time with little/no warning; may strike one or more locations; have potential to cause many casualties, displace people, property loss, infrastructure/public services disruption, and environmental damage; might overwhelm local capabilities; require substantial information sharing and resource coordination

Incident response - typically managed at lowest geographic/organizational/jurisdictional level; adhere to NIMS principles; could require prolonged, sustained operations/support activities; may require volunteers/supplies

Priorities - to save lives; protect health/safety of public/responders/recovery workers; protect property; mitigate damages/impact; protect/restore critical infrastructure and key resources; facilitate recovery of individuals, families, businesses, gov'ts and environment; conduct necessary law enforcement investigations

EOP Objectives

1. Early response – by all services
2. Control emergency operations
3. Eliminate sources of potential danger
4. Rescue persons affected
5. Provide first-aid treatment
6. Distribute casualties to Hospitals
7. Control crowd at scene
8. Release timely/factual information
9. Evacuate building(s), deemed hazardous
10. Evacuate part/all of County, if necessary
11. Involve service agencies, as required
12. Authorize/control expenditures
13. Restore services to normal

County Services

- Audit & Control
- Aviation
- Board of Elections
- Buildings & Grounds
- Code Enforcement
- Coroner/Med. Examiner
- County Clerk
- County Court
- District Attorney
- Emergency Services
- Environmental Health
- Fire Coordinator
- Information Technology
- Law
- Legislative
- Mental Health
- Motor Vehicle
- Office for Aging
- Parks & Recreation
- Personnel
- Planning/Development
- Probation
- Public Defender
- Public Health
- Public Library
- Public Works
- Purchasing
- Records Mgmt
- Risk & Insurance
- Sheriff's Office
- Social Services
- Tax Department
- Transit
- Veterans
- Youth Bureau

Emergency Termination

Emergency Termination – declared by Cty Executive; to notify towns/villages, neighboring communities, SEMO

- On arrival, EOC members;**
- sign-in; open personal log
 - check tel./communications
 - contact their Area for status
 - participate in initial briefing
 - help-plan initial response
 - inform their Area of decisions

- Emergency Policy Group (EPG)**
- Formulate policies/strategies
 - Locate in EOC; direct EOC
 - Gather/analyze information
 - Evaluate alternatives
 - Inform public (thru PIO)
 - Communicate with County/Towns/Villages

- Emergency Medical Services** In addition to regular duties -
- Provide emergency medical treatment/transportation
 - Diagnose/treat; as per set priorities; report casualties to EOC
 - Establish/operate nearby medical centers for essential workers
 - Provide Dir. ES with road/bridge closings, for evacuation planning
 - Provide technical/medical advice; coordinate use of Fire, Police
 - Coordinate EMS response for mass casualties; liaise with EOC
 - Report EOC activation to State Health Regional Office
 - Maintain injured/killed list; brief Dir. ES
 - Activate County Ambulance Mutual Aid Plan; coord. with other services
 - Request notification of Tioga/Chenango Fire Ctrl for med. emergencies
 - Maintain resource lists; coordinate ambulance deployment
 - Maintain adequate ambulance coverage in other parts of County
 - Assess disaster impact and support needed for elderly; provide support
 - Refer special needs to approp. agencies; provide for their transportation

- County Executive**
- Activate Policy Group; designate Public Information Officer
 - Direct emergency operations; respond to request for assistance
 - Declare emergency; request state assistance
 - Waive restrictions/codes; establish line of succession
 - Order evacuations and opening of shelters
 - Designate representative to administer state/federal assistance

- Public Information Officer (PIO)**
- Establish/manage PIC; designate public emergency tel. no.
 - Authenticate information sources; provide essential information
 - Coordinate/clear all news releases with Executive
 - Monitor/control rumors; arrange interviews/tours of emergency sites
 - Provided missing person contact information
 - Maintain EPI materials; make available to public/ news media

- Emergency Services Director**
- Represent County Executive in administering Disaster Operations Plan, resource utilization, assistance requests (local/State/Fed.)
 - Maintain emergency alert list; coordinate alert/warning
 - Conduct hazard vulnerability study; monitor for disaster potential
 - Activate ECG; brief ECG/County Executive; coordinate public warning
 - Notify State EMO on major incidents
 - Establish information contacts; coordinate requests for assistance
 - Coordinate multi-organizational mitigation, response and recovery
 - Identify/coord. gov't/private resources for emergency support
 - Conduct periodic evaluation/briefing to Executive; participating agencies
 - Advise County Executive on evacuation or in-place shelter
 - Notify Red Cross re: using congregate care centers
 - Coordinate evacuation/sheltering; damage assessments; document
 - Coordinate Disaster Relief Assistance; Individual Assistance

- Coordinator, Fire Prevention & Control**
- Activate Fire M.A.P.; request activation of State Fire Mobilization Plan
 - Maintain resource lists; coordinate required Fire Services resources
 - Brief Dir. E.S. on status; notify State Field Fire Rep. of major incident
 - Liaise with EOC; provide technical information as required
 - Coordinate rescue activities; notify ES of HazMat spills, incidents, etc.

- Emergency Medical Services** In addition to regular duties -
- Provide emergency medical treatment/transportation
 - Diagnose/treat; as per set priorities; report casualties to EOC
 - Establish/operate nearby medical centers for essential workers
 - Provide Dir. ES with road/bridge closings, for evacuation planning
 - Provide technical/medical advice; coordinate use of Fire, Police
 - Coordinate EMS response for mass casualties; liaise with EOC
 - Report EOC activation to State Health Regional Office
 - Maintain injured/killed list; brief Dir. ES
 - Activate County Ambulance Mutual Aid Plan; coord. with other services
 - Request notification of Tioga/Chenango Fire Ctrl for med. emergencies
 - Maintain resource lists; coordinate ambulance deployment
 - Maintain adequate ambulance coverage in other parts of County
 - Assess disaster impact and support needed for elderly; provide support
 - Refer special needs to approp. agencies; provide for their transportation

- Department of Social Services** In addition to regular duties -
- Provide income maint., medical assistance, food stamps, counseling
 - Coordinate programs with agencies; deploy field teams
 - Coordinate resources; assess/document effect and social impact

- American Red Cross** In addition to regular duties -
- Manage temporary Red Cross shelters; reception/care center teams
 - Provide food service for disaster victims and emergency workers
 - Assist families/individuals with clothing, food, housing, household needs, transportation, occupational supplies
 - Provide community information/referral service; recruit volunteers

- Parks & Recreation**
- Monitor county water shed projects during heavy rain / spring thaws
 - Provide damage assessment; provide resources

- Department of Transit**
- Provide evacuation transportation; provide resources
 - Coordinate needs with public and private transportation services

Selected Key Responsibilities

- Aviation**
- Coordinate emergency operations with Federal Aviation Admin.
 - Coordinate aviation operations; liaise with local airports
 - Provide Crash Fire Rescue Operations on airport property

- On-Scene Commander**
- Responsible for field operations and on-scene response force
 - Contact building owners; establish on-scene Command Post
 - Establish perimeter for disaster area; control area; staging area
 - Arrange for radio, tel. and b/u power; establish EOC communications
 - Establish/control emergency routes; arrange security / crowd control
 - Recommend/direct evacuation; update County EOC regularly
 - Arrange protective clothing; accommodations/food for personnel

- Sheriff's Department** In addition to regular duties -
- Maintain order at disaster area; reception centers; shelters
 - Assist evacuations; enforce Executive orders; coord. with law agencies
 - Maintain public security at disaster area/shelters/critical facilities
 - Control disaster area access; traffic/evacuation movement
 - Provide communications support; help notify public; identify dead

- Department of Public Works** In addition to regular duties -
- Highways/Bridges – maintain/close; clear debris; replace signs; provide resources e.g., trucks, heavy equipment
 - Buildings/Grounds – maintain; repair utilities; provides skilled staff
 - Security – for county buildings & facilities, including traffic control
 - Sanitation – provide sanitary landfill disposal facility
 - Engineering – assess roads/bridges/culverts/buildings; assist design in planning reconstruction/recovery

- Health** In addition to regular duties -
- Enforce Health/Environ./Sanitary codes; issue health advisories
 - Assist with health/envir. evaluation; waive/restrict health/envir. codes
 - Monitor water supply, sewage control, HazMat, decontamination, disease/pest control, food sanitation
 - Liaison with nursing assistance; provide referral information
 - Determine radiation levels/decontamination/treatment/care
 - Coord. health facility evacuations; determine new treatment centers
 - Supervise identification/disposition of dead

- Emergency Support Functions (ESFs)**
- Each ESF identifies the agencies responsible for providing resources to meet that particular ESF mission. Several ESFs incorporate multiple components and agencies, with primary agencies designated for overall coordination of ESF functions.
