B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

All of the outfalls within the County roadways (and within the designated MS4 boundaries) were verified and relocated using GPS equipment during the summer of 2013. Seventeen (17) facilities within the MS4 boundaries have been mapped/surveyed and two (2) remain to be completed in 2019. During the 2016 self-assessment surveys at the 19 MS4 County facilities, additional outfalls were located and mapped. Outfalls will continue to be reviewed and updated as needed.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

There are several ways for the public to report IDDE within Broome County. There is a hotline and fillable on-line form through Environmental Health (part of the Health Department) - there is a fillable form specifically for reporting IDDE on the County's DPW Stormwater webpage and the County Planning webpage. All of the complaints / issues during 2018 came in through the Health Department. The County needs to determine a more effective method to publicize the on-line forms.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

MEASURABLE GOAL #3F -- To educate and inform 100% of Broome County staff about IDDE's - what they are, how to report them, and how to address them. This goal is cross referenced with coalition activities related to public education, but will be directed specifically to county employees.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

DPW staff have been working directly with facility managers to educate these staff regarding IDDE's, SPCC's, and good housekeeping. Several employee educational brochures have been developed relating to IDDE's and stormwater/MS4 in general. In 2018 we began more general training of DPW staff related to these measures. 63 new individuals were trained regarding IDDE and general facility related good housekeeping measures.

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

MEASURABLE GOAL #3G -- To inform and educate businesses and industries about the negative environmental impacts of illegal dumping, as well as chemical and hazardous waste spills, and to encourage the use of BMP's to prevent and control these. This is to be done through the County 239 review process, which is an advisory capacity only.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Broome County Planning and Engineering staff continue to review and analyze 239 development reviews where BMP's are incorporated or included as advisory comments to municipalities as appropriate. Additionally, Broome County Planning has been providing training for municipal staff regarding stormwater issues and IDDE. No additional progress related to tracking was made during the 2018-2019 reporting year.

C. How many times was this observation measured or evaluated in this reporting period?

D. Has your MS4 made progress toward this measurable goal during this reporting period?

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?
 Yes No
F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

For this next reporting period we need to create a better tracking system through County Planning to count the number of times these educational issues are being addressed through the 239 review process. Besides this modification, the program goal is to continue these reviews as established, and to continue the outreach to municipal officials. An additional item that we would like to work on this year is to create specific literature to be sent back with 239 reviews.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

All SWPPP projects had weekly reports by a qualified SWPPP inspection and signed off on by a Licensed NYS Professional Engineer submitted to the Town Engineer. The Town Engineer and/or engineering staff visited each site periodically and discussed minor corrective actions with site representatives if repetitive reporting without corrective action was noted on the submitted SWPPP inspection reports.

7. Evaluating Progress Toward Measurable Goals MCM 4

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

MEASURABLE GOAL #4A -- To assure that 100% of County Contracts, both with consultants and with contractors include appropriate erosion control language - either requiring design considerations from consultants or construction considerations from contractors. This includes SWPPP's and other environmental permits included in the bid documents as part of the legal contract, and language which allows inspectors to stop work if projects are in non-compliance.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The County has adopted a policy of including erosion control language in all contracts bid that involve earth disturbance and the potential for erosion and sedimentation, irregardless of the area disturbed. In addition to the standard notes added to plans and specifications, the County added the "contractors stormwater certification statement" into our bid documents which are returned as part of the bid. Only one DPW project was bid during this reporting period.

C. How many times was this observation measured or evaluated in this reporting period?

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

MEASURABLE GOAL #4B -- To assure that 100% of County work with SWPPP's have a contractor with appropriately trained staff (NYSDEC Erosion Control Certified), that a copy of the certification be provided prior to start of work, and that this trained person be on site during all earth moving operations.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Appropriate contract language has been inserted into contract documents as necessary. We have had these discussions with contractor's on all applicable contracts at the preconstruction meeting (12 projects during this reporting period).

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Staff training was started in 2016 (2 people trained), but goal has not been 100% achieved, and was not progressed as planned during the past reporting period. We want to train additional staff in these areas to make sure that there is coverage beyond just managers. As noted in last year's planned goals, we have formalized the process described in goals 5A, 5B, and 5C.

Although existing staff is providing these functions currently, this goal is to make sure that all staff functioning in these roles (and their support staff) are trained to follow the same (and correct) procedures. It is a priority in 2019-2020 to get this goal completed and functioning in accordance with adopted good-housekeeping documents. Monitoring and inspection will be handled by DPW - Engineering staff.

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMP in this reporting period.

MEASURABLE GOAL #6A -- To complete a self-assessment every 3 years for each of the 19 County facilities within the MS4 jurisdictional area, and then to use these assessments to evaluate established good housekeeping and implement changes as needed.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Self-assessments at the 19 County Facilities within the MS4 boundaries were 100% completed during the 2016-2017 reporting year, including on-site inspections at each facility by DPW staff. The next self assessment is due during the 2019-2020 reporting year. We have begun development of individualized reporting checklists for each facility, but did not get this completed during this reporting period.

MEASURABLE GOAL #6B -- To sweep 100% of County Roads and Parking Lots within the MS4 boundaries at least once annually in accordance with Good Housekeeping measures.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The County is working on this goal by better defining the MS4 road boundaries and better infrastructure mapping, and the development of good housekeeping records. Although we did sweep roads and parking lots, we did not get the MS4 boundary definition completed as described.

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

MEASUREABLE GOAL #6J -- To implement program tracking and record keeping that is individualized for each County facility based on the good housekeeping documents and in accordance with the NYSDEC tracking system and forms so that the County will be in a position to transition to this annual reporting method once it is implemented by the DEC.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

This was a new program goal in 2016. Individualized annual reporting forms have been developed and are being used to report on parameters measured in the annual DEC permit report.

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

Yes No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

Yes No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

During the upcoming reporting period our goal is to update reporting forms once the new NYSDEC permit is issued, and institute monthly and quarterly reporting where required.

1. Choose/list each municipal operation/facility that contributes or may potentially contribute Pollutants of Concern to the MS4 system. For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.
