

Citizen Questionnaire

Broome County Brownfields Assessment Program: A Community Introduction

April 1, 2004

Broome County Public Library, Binghamton, NY

A component of the Broome County Brownfield Assessment Program (BAP) is citizen involvement. Information exchanged during the BAP's citizen participation events is intended to promote two-way communication between the public and the planners and policy makers involved in this program.

To enable us to build relationships with the community-at-large, we encourage you to complete this questionnaire so that we may address your questions and concerns about brownfields.

In what city, town, or village do you

reside? _____ own/operate business? _____

How do you perceive brownfields in the community where you live, work or operate a business, and why?

Do you have specific knowledge or a concern about your community that you believe is related to an abandoned or underused commercial or industrial site?

Is there a site in Broome County you believe has potential for redevelopment and or revitalization, either for future business or recreational use, and if so, where?

Do you have a question about brownfields that you feel was not addressed tonight, and if so what is (are) your question(s)? May we contact you by email, phone, US mail, etc? If so, please provide contact information.

Would you liked to receive meeting notices of the Broome County Environmental Management Council's Brownfield Committee (notices can be sent via us mail or email)? If so, please provide either an email address or mailing address, if you have not provided one in another answer.

The Broome County Environmental Management Council would like to hear from you!
